PHONE BETHANY ~~2500~~

R.# 1, Box 85.
February 12, 1950.

Mr. W.M. Guernsey,
Cheyenne Horticultural Field Station,
Cheyenne, Wyoming.

Dear Mr. Guernsey:-

We are enclosing a copy of our chrysanthemum list from fall, 1949, which gives most of the **varieties** that we grow. Those on the second sheet are the newer ones that we will ~~have~~ this spring. We have ordered others for this spring's delivery, among them several varieties that we have not had before. We also have several seedlings that we have grown for a period of two years or longer, which we think desirable, and which we shall offer this spring. Should you be interested in trying one or two of them we will send you a few rooted cuttings of each, at planting time.

We do not have a catalog of all our nursery stock, but have a list of roses for spring and fall. These are all standard and patented varieties, which we purchase as two-year, No. 1 stock. We do grow a few climbers such as Silver Moon from cuttings. We have shrubs, evergreens and some trees, both flowering and shade; also fruit plants. Since we are on a through highway we do mostly retail, cash-carry business, though we do some landscape planting, too, as most of the nurseries here, do.

If there is any further information as to our stock that I can give you, please let us know.

Sincerely yours,

Margaret Closs Prather
Shenstone Farm Nursery.
